- Charlestown Cup Stage 2 Sporting Program
- academic excursions
- creative arts opportunities
- cultural experiences
- sporting events

working together
WHITEBRIDGE
COMMUNITY OF SCHOOLS

educating the
whole **child** in
their **community**

OUR ROLE

*The world is changing
and we're changing too!*

We have been successfully educating young Australians for over one hundred years by adapting our methods to meet the needs of our students, community and the nation.

We continue to improve our performance by providing a range of programs and learning experiences that prepare our students for the challenges of the future.

We're also *working together* to help them to become life-long learners.

OUR APPROACH

*Working together, sharing
skills and resources*

As a community of schools, we're building a strong identity and positive presence in our community. As we grow with our community, we welcome your ideas, opinions and feedback about our progress.

Through collaborative relationships with each other, our local schools provide a seamless transition through all phases of your child's education from Preschool to Primary School to High School.

Our strength as a community of schools comes from sharing skills, talents, programs and resources to provide the best possible opportunities for all our students.

We're *working together* to improve the academic, vocational, and social outcomes for each student. We also support the development of quality teachers to provide a quality education for every child.

We're building the necessary skills, values, self-awareness and resilience to enable your child to thrive.

We provide a safe, secure, nurturing learning environment.

OUR VALUES

*Educating the whole child
in their community*

By focusing on educating the whole child, we continue to change the way we deliver educational opportunities in an increasingly demanding and complex world.

We believe local public schools are best able to meet the needs of local children. By *working together* local schools support your child in developing strong friendships, links and roles in their community.

We also use Restorative Practices to resolve problems, which means repairing harm and restoring relationships if things go wrong.
