Forward

Please read in conjunction with **Whitebridge High School Assessment Policy**.

The Assessment Policy is located on the school's website as well as through the Year Adviser and Deputy Principal.

The Certificate

Upon satisfactory completion of the Year 11 program of study a student will be awarded a grade in each subject. These grades will be shown on their ROSA (Record of School Achievement), for students leaving school before completing Year 12, or on their HSC Record of Achievement.

The successful completion of 12 units of study in Year 11 is a prerequisite for the HSC. A student will also need to complete at least 10 units of study in Year 12.

Requirements

The program of study requirements are that:

- the student's attendance, conduct and progress will be satisfactory;
- the student will study a permitted combination of courses;
- the student will study courses as approved by NESA;
- the student will complete the requirements of each course including any necessary oral, aural, practical, field work or project work;
- the student will have performed all tasks required as part of the assessment program; the student will sit for, and make a genuine attempt at, any assessment task set as part of the course and the final Year 11 Formal Written Examination for each of their subjects.

The Courses

Two types of courses are approved for study in the HSC Year 11 Courses:

- Board Developed Courses - are the courses for which NESA develops a syllabus, setting out the objectives, outcomes, structure and content. NESA also develops Higher School Certificate examinations for most of these courses.
- Board Endorsed Courses - all of which count towards the HSC and are listed on your Record of Achievement. However, Board Endorsed Courses do not count towards the calculation of the Australian Tertiary Admission Rank (ATAR).

All courses are based on units of study, where each unit requires two hours per week. Most courses are two unit courses. Some one unit courses are also offered.

School-Based Assessment

The assessment marks awarded will be based on achievements measured at points throughout the course. This measure of students' relative achievements is based upon:

- a wider range of syllabus outcomes than may be measured by an assessment task, although it must cover all the objectives measured by the assessment task;
- multiple measures and observations made throughout the Year 11 course rather than at a single, final examination.

Measuring achievement at points during the course provides a better indication of student achievement than a single examination. It increases the accuracy of the final assessment of each student's achievement by using multiple measures. It caters for any knowledge and skills outcomes that are better assessed in specific settings (e.g. research, fieldwork or practical skills), thus broadening the base of the assessment.

Assessment tasks may include tests, written or oral assignments, practical activities, fieldwork, depth studies and projects.

For VET courses, assessment is via competency in performing work-related tasks. This contributes towards a VET qualification but not towards an HSC mark.

The Responsibilities of the NSW Education Standards Authority

NESA produces a syllabus, a statement of course rules, a list of prescribed texts, works and projects and an assessment guide for respective courses. To allow access by students, parents and other members of the public to these documents, NESA provides information on their website.

The NESA Higher School Certificate rules and requirements are covered in the Assessment, Certification and Examination (ACE) Manual. This and many other NESA publications, including syllabi, can be found on the NESA website: www.educationstandards.nsw.edu.au

The School's Responsibilities

In accordance with NESA requirements, this school has developed an assessment program for each course.

We have:

- identified the student tasks which best measure the components of a course;
- specified values to be applied to each of the tasks to maintain the relative importance of each component;
- scheduled the various tasks throughout the course;
- prepared information for students setting out the requirements of each course.

We will:

- notify students of approved calculators and other requirements as designated by NESA;
- notify the mark value awarded for each task in relation to the total number of marks for the course;
- keep records of the students' performance on each task and provide information to the students on their progress.

Reporting Results

For each assessment task attempted, students will receive significant feedback on their performance, either by a mark or rank. As well, during the course, the school will provide information to students, which will show their cumulative rank order at that point in time. This will occur in the form of a school report, which will be issued at the end of the HSC Preliminary Course.

The Teaching/Learning Process

Capping the number of formal written examination tasks that mimic the HSC examination to one per course.

Satisfactory Completion of a Course (Course Completion Criteria)

A student will be considered to have satisfactorily completed a course if, in the Principal's view, there is sufficient evidence that the student has:

- (a) followed the course developed or endorsed by NESA; and
- (b) applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- (c) achieved some or all of the course outcomes.

While NESA does not mandate attendance requirements, Principals may determine that, as a result of absence, the course completion criteria may not be met. Clearly, absences will be regarded seriously by

Principals who must give students early warning of the consequences of such absences. Warning letters must relate students' absence to the non-completion of course requirements.

If at any time it appears that a student is at risk of being given an 'N' (Non-completion of course requirements) determination in any course, the Principal must warn the student as soon as possible and advise the parent or guardian (if the student is under 18 years of age) in writing. This warning should be given in time for the problem to be corrected. If the first warning letter is not effective, a further warning letter(s) should be sent.

Students who have not complied with the above requirements cannot be regarded as having satisfactorily completed the course. The Principal will then apply the 'N' determination.

Students' Responsibilities and Procedures

1. Students are expected to complete all tasks and sit for all examinations set as part of the assessment program at the specified time.
2. Some tasks will be performed in class; others will be prepared out of school and handed in at a designated time and then tested in class. A zero mark may be awarded in either case if evidence is found to support any suspicion that the work submitted is not that of the student.
3. Ample notice will be given to allow students to organise their workload to allow submission dates to be met. It will not be accepted as a valid reason for consideration, that pressure of work made meeting the deadline(s) impossible.
4. If an assessment task is due to be submitted on a set date, it must be presented on that date. See Whitebridge High School Assessment Policy booklet for information on Late Submission of tasks and Misadventure/Illness and Appeal procedures.
5. HSC: All My Own Work Program - a mandatory prerequisite for the HSC (completed prior to commencement of Year 11 work).

Malpractice or Non-Serious Attempts

The honesty of students in completing assessment tasks, examinations and submitted works, and of teachers and others in guiding students underpins the integrity of the RoSA and the HSC. Throughout the assessment process, the highest level of honesty is required.

Each student's mark is determined by the quality of the work produced by the student only. To demonstrate honesty, any component of a student's work that has been written, created or developed by others must be acknowledged in accordance with the NESAs subject specific documentation. Use or inclusion of material from other sources such as books, journals and electronic sources, including the internet, must be acknowledged. General teaching and learning do not require formal acknowledgement.

In the case of suspected plagiarism, students will be required to provide evidence that all unacknowledged work is entirely their own. Such evidence might include, but is not limited to, the student:

- Providing evidence of and explaining the process of their work, which might include diaries, journals or notes, working plans or sketches, and progressive drafts to show the development of their ideas.
- Answering questions regarding the assessment task, examination or submitted work under investigation, to demonstrate their knowledge, understanding and skills.

Dishonest behaviour carried out for the purpose of gaining unfair advantage in the assessment process constitutes malpractice, or cheating. Malpractice in any form, including plagiarism, is unacceptable. NESAs treats allegations of malpractice very seriously and detected malpractice will limit a student's marks and jeopardise their satisfactory completion of the HSC.

Should malpractice be suspected, students will be informed of the allegation and be required to demonstrate in writing that all unacknowledged work is entirely their own within five school days. If the suspected malpractice constitutes an alleged breach of examination or assessment task rules, students will be expected to respond within five school days to the allegations in writing.

In cases where a teacher alleges that the student has made a non-serious attempt at a task, the matter should be referred to the Head Teacher in the first instance. If the Head Teacher agrees that the student

has made a non-serious attempt at the task the student has five school days in which to respond in writing. Based on the Head Teacher's determination, the student concerned will be referred to the Assessment Appeals Committee.

Students determined to have been involved in malpractice in relation to any assessment task, including examinations, may expect to receive a zero mark for that task. Students who are determined to have made a non-serious attempt at an assessment task may also expect to receive a zero for that task.

What constitutes malpractice?

All work presented must be your own or must be acknowledged appropriately. Malpractice, including plagiarism, could lead to you receiving zero marks for the task or examination.

Malpractice is any activity that allows you to gain an unfair advantage over other students. It includes, but is not limited to:

- copying someone else's work in part or in whole, and presenting it as your own
- using material directly from books, journals, CDs or the internet without reference to the source
- building on the ideas of another person without reference to the source
- buying, stealing or borrowing another person's work and presenting it as your own
- submitting work that another person, such as a parent, coach or subject expert, has contributed to substantially
- using words, ideas, designs or the work of others in practical and performance tasks without appropriate acknowledgement
- paying someone to write or prepare material
- breaching school examination rules
- cheating in an examination
- using non-approved aids or electronic devices during an assessment task
- contriving false explanations to explain work not handed in by the due date
- assisting another student to engage in malpractice.

Disability Provisions

The NESA NSW assesses applications from students with special assessment needs in order to provide eligible students with practical support in NESA NSW assessments and examinations. Applications may be made by students for the RoSA, Preliminary HSC and Higher School Certificate according to procedures determined by the NESA NSW. The coordinators of these applications are the Head Teacher Welfare and the Learning Support Teacher. They will be able to provide Year 9 - 12 students with Disabilities Provisions Application forms and Information Guides. Students who wish to apply for disabilities provisions should see a member of the Learning Support Team.

Parents are encouraged to contact the Head Teacher Welfare or the Learning Support Teacher with any questions regarding the process. Parents will also be provided with the part of the form to be completed by any relevant specialists. It is most important that parents carry out this request in order to support the application with statements from medical professionals. The due date is always the last day of Term 1 for pre-existing conditions, except for applications based on chronic fatigue syndrome, post-viral syndrome, Ross River fever or glandular fever, which should be submitted in July of the examination year, with teacher comments and medical documentation also dated July.

For more details, refer to the NESA NSW website on <http://www.boardofstudies.nsw.edu.au/disability-provisions/> or contact the school.

When an application is submitted, evidence must be included indicating the precise nature of the disability and the consequent effect on examination performance. Examples of provisions available include braille or large-print papers, use of a writer and/or reader, use of an oral interpreter, extension of test time, rest breaks, separate examination supervision and permission to take medication. Schools are responsible for determining and approving disability provisions for all school-based assessment tasks. NESA only determines disability provisions for the Higher School Certificate examinations. Students and parents should be aware that there is no guarantee NESA will grant the same provisions as those given at school. Supporting documents, e.g. medical reports that confirm diagnosis of a particular condition; hearing and vision tests; timed essays should be submitted with the application. Supporting documentation should be

less than 12 months old except where an existing medical condition/ diagnosis will not change with time, e.g. permanent vision loss, diabetes. Provisions for emergencies (eg a broken arm) may be sought up to the day of the examination. If all the necessary information is not provided, some requested provisions will be declined due to insufficient evidence.

Where a student has a condition that may or may not occur during an examination, such as migraines or asthma, the occurrence of an episode during an examination is covered by illness/ misadventure appeals, not disability provisions. Also, disability provisions cannot compensate students for difficulties in undertaking a course or for lost preparation time. However, if there are identifiable factors known to contribute to or trigger a particular condition, an application can be submitted on this basis; for example, separate supervision in a room with natural light if bright lighting frequently results in a migraine.

Students may need provisions for:

- a permanent condition, such as diabetes or reading difficulty
- a temporary condition, such as a broken arm, or
- an intermittent condition, such as back pain when sitting for long periods.

NESA does not consider the lack of familiarity with the English language to be a disability in this context. Therefore, provisions such as the use of an English/foreign language dictionary will not be approved for students disadvantaged solely because of lack of familiarity with the English language.

Where a student has a condition that might manifest itself during an examination session (e.g. epilepsy or asthma), the occurrence of an episode during the examination will be covered by the illness/misadventure provisions.

Students for whom disability provisions are approved may not be eligible for illness/misadventure consideration for the same condition unless they experience a deterioration or variation in their condition during the actual examinations.

Common Grade Scale for Higher School Certificate Courses

The Common Grade Scale describes performance at each of five grade levels.

Grade A	The student demonstrates extensive knowledge of content and understanding of course concepts and applies highly developed skills and processes in a wide variety of contexts. In addition, the student demonstrates creative and critical thinking skills using perceptive analysis and evaluation. The student effectively communicates complex ideas and information.
Grade B	The student demonstrates thorough knowledge of content and understanding of course concepts and applies well-developed skills and processes in a variety of contexts. In addition, the student demonstrates creative and critical thinking skills using analysis and evaluation. The student clearly communicates complex ideas and information.
Grade C	The student demonstrates sound knowledge of content and understanding of course concepts and applies skills and processes in a range of familiar contexts. In addition, the student demonstrates skills in selecting and integrating information and communicates relevant ideas in an appropriate manner.
Grade D	The student demonstrates a basic knowledge of content and understanding of course concepts and applies skills and processes in some familiar contexts. In addition, the student demonstrates skills in selecting and using information and communicates ideas in a descriptive manner.
Grade E	The student demonstrates an elementary knowledge of content and understanding of course concepts and applies some skills and processes with guidance. In addition, the student demonstrates elementary skills in recounting information and communicating ideas.

	Graphic Design Music Festival	Wearable Design Custom Kicks	Interior/Exterior Design Store Structures	
	Term 1, Week 10	Term 2, Week 7	Term 3, Week 5	
	Outcomes Assessed DM1, DM2, DM4, CH1, CH2, CH4	Outcomes Assessed DM1, DM2, DM3, DM4, DM5, CH1, CH2, CH3, CH4	Outcomes Assessed DM1, DM2, DM3, DM4, DM6, CH1, CH2, CH3, CH4	
Design making	20	30	20	70
Art criticism and art history	10	10	10	30
Total %	30	40	30	100

Illness, Accident or Misadventure Application Form

Whitebridge High School – Years 10, 11 & 12 Illness & Misadventure application

- Can be submitted before the due date when misadventure is known beforehand
- Can be submitted within two (2) school days after return to school

Student name: _____ Year: _____

Subject & class: _____ Original task due date: _____

Task description: _____

Unacceptable grounds for illness/misadventure

The application process does not cover:

- attendance at a sporting or cultural event, or family holiday
- alleged inadequacies of teaching or long-term matters relating to loss of preparation time, loss of study time or facilities.
- disabilities for which the school has already granted disability provisions, unless an unforeseen episode occurs during the assessment period (e.g. a hypoglycaemic event suffered by a diabetic student or a student who has been isolated but is still ill) or further difficulties occur, the authenticity of which is supported by the Principal.

NB: A student who is representing the school will be supported by illness/misadventure

Absence reason: _____

In the space below, explain with sufficient detail the evidence that supports your case for illness/misadventure (continue over the page if necessary).

Supporting documentation for illness/misadventure: Y / N Year 10 & 11 – Desired Year 12 – Mandatory

Student signature: _____ Date: _____

Guardian signature: _____ Date: _____

Date task submitted: _____

Office Use Only

Head Teacher recommendation: Accepted / Rejected

- Same task
- Late submission
- Zero
- Estimate based on evidence
- Alternative task

Teacher: _____

Date: _____

Head Teacher: _____

Date: _____

Deputy Principal: _____

Date: _____
